ABSTRACT. Quantity of society organizations is increasingly growing. However, civil society organizations formed was not accompanied with comprehension and understanding of the functioning of organizations, especially in the construction of the nation's character. Development of national character is the function and role of civil society organizations. This study aims to map the level of functioning and the role of community organizations in the development of the nation's character. The approach used is a qualitative descriptive method, whereby the location of research on organizations in Bandung. Data were collected through interviews, documentation and observation office and environmental organizations. Results of this study consisted of a form of activity in developing national values; efforts to strengthen and enhance the value of Pancasila; and efforts in realizing national life in accordance ideology, constitution, and state policy. Analysis of the study was the role of organizations in the development of national character has not been optimal. The role of organizations in the development of national character performed on the stage of awarding the understanding, training, and partly by habituation. Therefore, it needs a way to actualize the role of organizations in the development of the nation’s character.

ABSTRACT. This study aims to 1) find some reasons why the use of teaching materials based on noble values of the teachings of Ki Hajar Dewantara effectively enhance the character of students, 2) describe the effectiveness of the increase in the student's character through the use of teaching materials based on noble values of the teachings of Ki Hajar Dewantara, 3) comparing the effectiveness of the increase in the student's character through the use of teaching materials based on the teachings of the noble values of Ki Hajar Dewantara with the use of conventional teaching materials. This study uses qualitative and quantitative paradigm (mixed methods). The population in this study is the Junior High School eighth grade students in District Colomadu, Karanganyar. The research sample was selected eighth grade C (36) and VIII F (36) SMP Negeri 1 Colomadu and class VIII A (32) and VIII B (32) SMP Negeri 3 Colomadu Karanganyar. The amount of the overall sample as many as 136 students. The research results can be presented as follows. Some of the reasons are the use of teaching materials based on the teachings of the noble values of Ki Hajar Dewantara effectively improve students' character is as follows. 1) The values of the sublime teachings of Ki Hajar Dewantara excavated from the original values of the Indonesian nation, 2) the noble values are practical, realistic, and easy in application. The use of teaching materials based on the teachings of the noble values of Ki Hajar Dewantara more effective in raising students' understanding of character education, and could further enhance the student's character than conventional learning. These findings are based on the analysis of data using different test as follows. From the results obtained pre-test t: t table ts 5% = 0.187: 1.960; 0.187 < not significant (students experimental group and control group departed from the same capabilities). 1.960 Results postes t: t table ts 5% = 5,761: 1,960; 5,761> significant (increase in a significant character in the experimental group compared to the control group). 1,960 The use of teaching materials based on the teachings of the noble values of Ki Hajar Dewantara very effective in raising students' understanding of effective character education and also in enhancing the character of the students themselves.

ABSTRACT. Women’s issues have been chosen as a component of access to justice because of the presence of women as part of the disadvantaged groups. It is not because of their sexuality merely as a woman, but more complicated because women have been placed in the inter-sectional relationship of race, class, colonialism, and naturism. In the scheme of access to justice, will be explained about, first, the availability of legal framework. In this respect will be identified existing legal instruments, in particular Law No. 23 of 2004 on the Elimination of Domestic Violence and numerous weaknesses which adverse implications for women victims of domestic violence. Secondly, how far the legislation guarantee legal knowledge and understanding of women victims of domestic violence. Third, what is the settlement for women victims of domestic violence to seek justice, how the process is, how the accessibility and effectiveness. Fourth, who are actors supporting the efforts of women victims of domestic violence to access justice and what roles the actor.

ABSTRACT. The research has many purposes: (1) to increase the understanding of values about creative industry works and entrepreneur soul through character education based and (2) to model of behavior that encourages creating creative industry and a role of entrepreneurship soul in developing agriculture and atsiri oil process industry in Semagar village, Sub-district Girimarto Wonogiri. The method of the research is descriptive qualitative based on Interactive Analysis Model (Miles &Huberman, 1992), namely quasi-experiment (pretests-posses with control group design). The procedure of developing model through a process as follows: (1) training of need analysis; (2) training of entrepreneurship character education; (3) implementation of a model; (4) revision; and (6) evaluation of model implementation and development. Based on the research findings, it can be concluded that it needs a consistency of Sumegar's villagers in sub-district Girimarto Wonogiri to continually develop the effort based on forceful character education in doing a business and maintaining a kind of atsiri oil ingredient which will be developed with clove leaf as a basic ingredient from a potential area in Wonogiri regency. Subsequently, the researcher suggests that it seems very potential to the development of atsiri oil process industry, therefore she encourages it to compete an opportunity to enter export market and to strengthen the improvement of atsiri oil production quality through entrepreneur character education based.

ABSTRACT. This research focuses on political participation of Arab descent ethnic in the presidential election 2014. The problems examined in this research are form and characteristics political participation of Arab descent ethnic in Pasar Kliwon in the president and vice president election in 2014. Meanwhile, the objectives of this research are to explain and to describe form and characteristics political participation of Arab descent ethnic in Pasar Kliwon in the presidential election 2014. To answer the problem statement above, there are three theoretical framework, namely political participation in presidential election, Ethnicity and the Presidential election. The result of the research shows that political participation done by the community of Arab descent ethnic in Pasar Kliwon sub district in presidential election in 2015 completely autonomy and conventional in step before voting as discussion about problems towards presidential election through informal forums, in the step voter registration completely stelse passive by waiting to be registered by registered voter officer, most of Arab descents ethnic in Pasar Kliwon sub district did not follow campaign because they have the same schedule with their daily routines. Political Participation in the stage of voting so enthusiastic to come to voting place and choose one of candidate for president and vice president without any pressure. In step after voting, Arab descent ethnic did not attend and participate. Political participation of Arab descent ethnics in Pasar Kliwon Sub district showing improvement compared to previous election, where the number of blanks voters in Pasar Kliwon sub disctrict is higher than other sub district in Surakarta, one of number of contributors for blank voter is Arab descent ethnics, they are passive and ignore general election activities.
